RACE

Section 97253

The race shall be as self-reported by the patient or patient's guardian in cases where the patient is not capable of providing the information. The patient's race shall be reported as one choice from the following list of alternatives under race:

DISCUSSION

Specifications for reporting this data element with the Record Entry Form for online web entry of individual records or online data file transmission for encounters occurring on or after January 1, 2005:

3. RACE	
R1	American Indian or Alaska Native
R2	Asian
R3	Black or African American
R4	Native Hawaiian or Other Pacific Islander
R5	White
R9	Other Race
99	Unknown

(a) American Indian or Alaska Native

DISCUSSION

A person having origins in or who identifies with any of the original peoples of North and South America, and who maintains cultural identification through tribal affiliation or community recognition.

(b) Asian

DISCUSSION

A person having origins in or who identifies with Asian Indian, Bangladeshi, Bhutanese, Burmese, Cambodian, Chinese, Filipino, Hmong, Indonesian, Iwo Jiman, Japanese, Korean, Laotian, Madagascar, Malaysian, Maldivian, Nepalese, Okinawan, Pakistani, Singaporean, Sri Lankan, Taiwanese, Thai, and Vietnamese.

AMBULATORY SURGERY DATA REPORTING MANUAL,
MEDICAL INFORMATION REPORTING FOR CALIFORNIA, FIRST EDITION
For Encounter Data occurring on or after January 1, 2005**

(g) *Unknown*

DISCUSSION

If the patient's race is not recorded in the patient's medical record, the race should be reported as "Unknown" with a race code of 99. This category includes patients who cannot or refuse to declare race.

ADDITIONAL DISCUSSION FOR ALL CATEGORIES

Determining Race:

- The patient's race data may be most accurately obtained directly from the patient. Self-identification may include the use of a form presenting choices.
- The quality of race data deteriorates when determination is based upon the patient's or a family member's name, physical appearance, place of birth, or primary language.
- If the patient is unable to respond, a family member may declare the patient's race.

Multiracial Persons:

If a patient identifies with more than one race category:

- At this time, OSHPD allows one choice for Race although the national standards allow up to ten choices.
- It may be appropriate for the patient to choose any one of the categories that is at least partially accurate.
- It may be appropriate for the patient to choose "Other Race."
